

Numbers  
identify cross  
section locations.

Phase 1 - 6 to  
be mined in  
succession with  
mining to proceed  
in a southerly  
direction.

Mining to commence here  
and proceed through Phase 1.  
Mining progression in Phases 2 through 5  
could be in a northerly direction,  
thus minimizing the effects  
on the North Face Lodge.

Contours were generated in AutoCad  
from a GPS survey of the project area.
